

Hello

I am very sad at the thought of yet more deregulation in the media. I believe that allowing corporations to own both a TV station and a Newspaper in the same geographic area will mean less varied news sources for the public, and a greater opportunity for corporate propoganda.

I am very much against this move.

Moreover, I am rather upset that this move was made so soon after the horrific tragedy of 9/11 that happened on my doorstep. I'm sure those terrorists would be very happy indeed to know that their disgusting action was used as a cover for an rule change that will inevitably lead to a restriction in choice for the American public. Please don't let the terrorists win in such an insidious way - please listen to my plea.

I love freedom, I love choice, I love America. I already despair that all the media outlets are becoming carbon copies of each other, please don't let it get any worse. Please reverse this revision.

A more varied media means a more educated public. A more educated public means a stronger democracy (democracy means choice and freedom).

Please, strike a blow for freedom.

Please reverse this revision.

Please.

Thank you

Love

Tom
